

Junior Primary

Our Junior Primary program is designed to give our youngest students a strong foundation for lifelong learning, social skills, and health. This is a **real school experience** including spring and Christmas concerts, progress reports and Closing Ceremonies. Taught by a Nova Scotia licensed teacher, our program offers young children and their families a holistic approach to learning, with a focus on personal, social, and emotional development. At Newbridge Academy, students are involved in many different activities designed to help young learners explore, discover and grow. They will have opportunities to initiate learning and play, as well as take part in structured learning under the guidance of a teacher. Our program is designed to develop your child's knowledge in reading, writing, and math, as well as provide a strong foundation for future learning.

Child must turn 4 before December 31st
