## Uniquely Balanced Curriculum

Accredited through Nova Scotia's Department of Education, Newbridge Academy provides a dynamic curriculum that actively promotes students to develop enhanced critical thinking skills. Our philosophy is deeply rooted in interactive learning and making purposeful connections beyond the classroom. Each student's learning style is recognized and strengthened while working in small classes. Our teachers design each lesson to ensure students are teaching their utmost potential. We promote critical thinking and creative problem solving cultivating independent learners who value their education.

Since opening our doors, the integration of Academic and Athletic Excellence has been a hallmark of our success. Our teaching, administrative and athletic staff recognize the transferable qualities our student-athletes gain through participation in elite sporting pursuits. Additionally, our student-athletes are focused on their academic success and value its role in their future. Newbridge Academy prides itself on our ability to enrich curriculum outcomes and establish real-world connections in the classroom, fostering active learning and capable leaders of tomorrow.
