

Programs

Academic Enhancement Program

The Academic Enhancement Program (AEP) is a premier academic enrichment program designed to enhance student leadership and engagement in four disciplines: mathematics, science, entrepreneurship and the arts. The curriculum is designed to encourage students to work collaboratively with hands on projects to achieve a better understanding of the real world applications of the four disciplines.

Baseball

Newbridge Academy offers a comprehensive Baseball Program to student-athletes. The first of its kind in Atlantic Canada, the Baseball program is designed to give aspiring student-athletes an opportunity for daily player development integrated into their weekly academic schedule. Student-athletes also receive physiological proficiencies to achieve elite status, while enrolled in a leading-edge academic program. An experienced and highly esteemed coaching staff brings years of baseball knowledge and experience to the program.

Soccer

Our soccer program offers both elite and basic soccer program for students in grades three through 12. These programs offer students the opportunity to refine individual soccer skills and competencies. The soccer programs develop elite athletes by enlightening players of the attitude, behaviours and mental approach required to excel in soccer and most importantly in life. This program will allow Newbridge student-athletes to have the necessary academic and athletic support, mentorship and education to pursue soccer at the post-secondary and professional level.
